Third party verified by Bureau Veritas against ISO 14067-3, ISO 14065 & ISO 14066. Verified in July 2024.

All estimates of carbon footprint are uncertain. Jabra has followed the LCA reporting rules from ISO 14067:2018 and the relevant Product Category Rules (PCR) from PCR-ed4-EN-2021 09 06. The report has been verified according to ISO 14067-3 Specification with guidance for the verification and validation of GHG statements, ISO 14065 Requirements for Validation and Verification, & ISO 14066 Competence requirements for GHG validation teams and verification teams. The scope of the LCA covers a 2 years usage period, using a GLO average based on major sales regions reflecting the average warranty period and average use case.
